LIONS CLUB OF JERSEY

Jersey Registered Charity No: 352

ZONE REPORT – MARCH 2021

The Jersey Lions Club is among the top Lions fundraisers in the British Isles but this year, as with so many other local charities, fundraising activities have been extremely limited. Nevertheless, Lions Clubs were founded worldwide on the principal “We Serve” and despite a significant depletion of available funds, the Jersey Lions’ Community Service Committee has continued to support many in the local community.

From July to the end of December, the Lions Community Service Committee, led by Lion Jane Rueb, has spent almost £11,000 on helping 32 families and individuals. Typical of this help has been the provision of a washing machine and tumble drier to a family, a bath lift for a disabled person, the provision of a profiled bed and mattress and dental work for an elderly resident plus many more similar items for deserving cases.

Although many of the sums paid out are relatively small, they provide items that are essential for families and individuals to maintain a quality of life in these difficult times. In addition, with funding from a recent legacy, the Jersey Lions have been able to spend a further £5,000 on providing summer and half term activity holidays for young people.

The Club was also able to donate in excess of £8,000 to local and international projects in the past six months and have also committed £15,000 to provide deserving local people with free holidays at Maison des Landes Hotel, the Lions’ ongoing major project for more than 50 years, as soon as the hotel is able to open and be compliant with the then current Covid-19 regulations.

Lion Peter Tabb

President & PR Officer – Lions Club of Jersey
